Correspondence Between Mr. Blaine and Baron Fava

ON THE NEW ORLEANS AFFAIR.

Why the Hallan Minister Resigned His Position at Washington-Comments of The New Orleans Times and Other Papers on the Present State of Affairs.

WASHINGTON, April 2.-The following correspondence between Earn Fava and Secretary Blaine, relating to the Italian troubles, is made public.

ROYAL LEGATION OF TAY, WASHING TON, March 8, 18.0.

Mr. S cretary of State: By my two notes of the 15.h and 16th, had the honor to call your excellency's serious attention to the occurrences of exceptional gravity which took pace at New Orleans on the 15 h, whereby four subjects of the King of Italy, who were contined in the prison of that city, were massacred by the crowd under the leader ship of two American citizens.

constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and acceptable substances its After having formally protested against the unjustifiable conduct of the local authorities, which were evidently recreant to all their duti-s on that occasion, I reserved to the government of his majesty the right to demand such satisfaction as it might to demand such satisfaction as it might think proper, since the occurency in question constituted a patent violation of the st pulations of the treaty in force between our two countries, which secures to Italian subjects residing in the United States the a ne protection that is enjoyed by American citizens, and which has always ben extended to the latter lu Italian . o ritory.

The reparation demanded by the government of the king, as I have had the honor to inform you n our interviews held during the inst few days, were to consist of the following points:

First-The official assurance by the Federal government that the gullty par-ties should be brought to justice.

Second-The recognition in principle that an indemnity is due to the relatives

of the victims. Your excellency was pieased to deciare

to me that, as the Federal government did not think that it could take this view of the case, it declined to take the two aforesald demands into consideration. Under these circumstances, the govern-

ment of his majesty, considering that the legitimate action of the king's minister at Washington becomes inefficacious, has or-

dered me to take my leave,
In obedience to the instructions which I have received, I have the honor to announce to your excellency that I am going to leave Washington as speedlly as possible, leaving the Marques imperiali, his majesty's secretary of legation, in charge of the current business of the royal lega-

Be pleased to accept, Mr. Secretary of state, the renewed assurance of my highest consideration.

His Excellency, James G. Blaine, Secretary of State, Washington.

DEPARTMENT OF STATE, WASHINGTON, April 1, 1891. The Marquis Imperial, charge d'affaires,

SIR-I have the honor to acknowledge the receipt of a note of yesterday's date, from Baron Fava, who has left the Italian legation in your charge. I beg to express the si scere regret with which the government of the United States receives the intell gence of Baron Fava's speedy departure from this capital. Though he has more than once intimated this purpose, the government of the United States has been unable, to see a lequate reasons not only giving relief, but effecting a sure and for such a step. The baron's service here permanent cure, if the plain and simple direct for the past ten years has been distinguished at ail times by the most agreeable relations with the executive department ASTHMA CURE positively does cure Asthma of of this government. The regret at his leaving is enhanced when, as the president believes, he has been recalled under a misapprehension of facts by the government of Italy.

The cause of his sundering his dipiomatic relations with this government is

Fava is slightly changed in phrise from that employ d by him In his many verbal requests based on a telegram from tie Marquis Rudini, which he left with me. The Marquis Rudini declared that "Italy's right to deman: and obtain punishment of the nurderers and an indemnity for the victims is unquestionable." It is inferred that Baron Fava's chang.

of phrase meant no change of demand. I have endeavored to impress upon him

in the several personal interviews with wilch be has honored me, that the government of the United States Is utterly unable to give the assurance which the Marquis Rudinl has demanded. Even if the National government had the entire jurisdiction over the alleged murderers it could not give assurance to any foreign power that they should be punished. The president is unable to see how any government could justly give an assurance of this character in advance of a trial and a verdict of "guilty."

In the constitution of the United States it is declared "that in all criminal prose-cutions the accused shall enjoy the right to a speedy and public trial by an impartial jury of the state and district wherein the crime shall have been committed."

out aying especially here in New caleans, where the full facts of this case are known. Italy and the United States are and should continue on the States are and should continue on the best of terms. There has never been the slightest unpleasantne s between the two countries. The American people nanimously sympathized with the movement which reunited Italy under its present kinglom, and have ever the warmest friendsin e enjertaine i the warmest friendship for it. To break this friendship over an affair like that at the parish prison is discreditable. There was no international or diplomatic issue involved. There was no question of any unfriendliness to italy or to the Italians. Eleven brigands and assassins were executed, of whom nine where American citi ens, and two are said to be subjects of the ring of Italy. As has fre ueutly been said it would not have made the slightest diderence had these two latter been Russians or any other nationality, for the race question did not enter into the matter in the slightest degree. The people of New Orleans rose to suppress an association of assassins, and it did not make the slightest difference to them to what race or nationality the murderers belonged. As for the re-ported reprisals on Americans travelling in Itally, is a game wich both countries can play at, and there are twenty Italians in this country for every American in Italy.

LONDON, April 3. — Advices from Rome state that the government is being pushed on by popular sentiment toward an aggressive course of action. King Humbert is friendly to Americans and his feeling in this respect is shared by the higher nobility, and by nearly all who mingle in the circle of the court. The people, however, are excited, and even more so than when the

news of the massacre first arrived. The American Italian papers, received within the past day or two, have caused the impression in Rame that the massacre was prompted and defended in America by other races adverse to the Italians, and that unless some decisive proof is given of the power and importance of Italy other immigrant races in America will try to tread them under foot. It is stated by an English gentleman, who possesses the confidence of the Italian court, that Italian royalty does not share in this belief, and would have been willing to ordinary diplomatic settlement.

Asked to He Patient.

LONDON, April 2.—A dispatch from Rome says: It is stated in circles in this city that the Italian minister to Washington has n t cabled anything decisive to his government in connection with his recall. Mr. A. C. Porter, the American minister to Italy, Tuesday requested the Italian government to be patient a few days. He explained in detail the obstacles existing in the United States which are in the way of a speedy settlement of the questions involved by the New Orleans lynchings.

The rumors which have been circulated in the United States to the effect that a number of Americans are detained in Italy as hostages are wholly unfounded. The jublic is tran uilly awaiting the issue of the negotiations between this country and the United States.

A Case of Bluff.

RICHMOND, Va., April 2 .- The Dispatch, Democratic, says: Italy's conduct looks very much like bluff. It has, however, been encouraged, if not inaugurated, by the dispatch sent Governor Nicholls by Mr. Blaine. When our own secretary of state, without the pretense of an investigation, takes the Italian view of the case, what can we expect from the ring of Italy and his minister: At present we decline to catch the war fever. It would have been time enough for Italy to have exhibited her anger after the New Orleans grand jury had acted or refused to act. she has gotten into a premature foolish and nnnecessary anger, and could be made to recognize that fact if the correspondence of our country were in competent hands.

There is no need to compare Janauschek's "Meg" with Miss Cushman's. They are quite different-created for different periods and to meet different tastes. It is enough that Madame Janauschek fully meets the demands of the role and surrounding circumstances. Iter marvelous voice, deep, harsh, fine, rough or smooth-she seems to have it under perfect control-is of limmense advantage to her in this part. State of Affairs in the Cokers' Strike.

DEPREDATIONS OF STRIKERS.

Armed Hungarians Make an Attack on the Non-Union Men at Mount Pleasant, Pa. - Other Dispatches Concerning Labor Troubles.

Pleasant, Pa.: One hundred and fifty Hungarians, many of whom were drunk, have just gone to the Standard works. The situation here is critical, indeed. Shouting, intermingled with pistol shots, can be plainly heard in the direction of Morewood. They are gather-Hungarians, many of whom were rection of Morewood. They are gathering recruits and it is thought they will soon return to Morewood. If the strikers make a second raid on Morewood bloodshed will undoubtedly to low as the company seems determined to re-pel any raid of strikers.

Striker shot and Killed.

Chester, Pa., April 2. - William Brown, one of the nien employed by the Standard Steel Casting company, at whose sho s a strike is in progress, was shot and killed last night. Brown is a striker, and it is said that he was with several strikers who attacked four nonunion men. The non-union men drew revolvers to defend themselves and Brown was shot through the heart. The four men, who came here from Jersey City to take strikers' places, are under arrest. Their names are A. and C. Gell, J. Cripps and Frank Quinn.

Lockont in Building Trades.

MILWAUKEE, April 2.—A lockout occurred in the building trades in this city yesterday, 1,200 stonecutters, mabricklayers and hodcarriers having been informed by the contractors that they would not grant the advance asked by the men to be inaugurated I. As a consequence building operations were almost total y suspended, only a few contractors having agreed to the new scale.

An Outbrenk Hourly Feared.

SCOTTDALE, Pa., April 2.—There is likely to be trouble at the Coalbrook coal works soon. Coalbrook is one of McClure & Company s plants of seventy ovens, and aside from Ruiney's works, it is the only plant in the region that is running full. The strikers, some 10,000 men, have issued orders to prevent the drawing of the Coalbrook ovens, but the company intend to have them drawn in spite of the strikers.

Wagon and Carriage Makers Strike.

PITTSBURG, April 2.—The wagon and carriage makers of Pittsburg and Allegheny, to the number of alout 900, struck yesterday. The men were victorious in fourteen shops, about 200 of them going back to work yesterday. There are still about 600 out for nine hours, and further signatures to th.ir scale are expected soon.

BOY ASSASSIN.

Attempt Made on the Life of Argentine's Prime Minister.

St. Louis, April 2.- A special dispatch from Buenos Ayres to The Globe Democrat says the city is greatly excited over an attempt made Saturday afternoon on the life of Gen. Roca, prime minister of the republic.

After a cabinet meeting which lasted until 5:30 o check Gen. Roca, accompanied by a friend, Don Gregoro Soler, entered his carriage and proceeded on his way homeward. As they passed Calle Cangallo a shot was heard, and Gen. Roca at once stopped the carriage and said, "My God, I am wounded.

A great crowd surrounded the carriage and the police made twen y arrests, among them a boy from 12 to 14 years of age, wo said he was out of employment and being convinced that Gen. Rocz was the cause of the ruin of the country, he decided to kill him. The boy seems to be inteligent, but it is be-lieved he was made the tool of some of Gen. Roca's bitter enemics.

Three days ago President Pelligrin received letters warning him that at-tempts would be made on the lives of himself, Gen. Roca and Gen. Levalle. The di-patch does not state how badly Gen. Roca was hurt.

Ricction in Ithode Island.

Phovidence, R. 1., April 2.—There was a large vote at the state election yesterday. The indications are that there has been no election of any state officer by popular vote. The general assembly, with the four cities and several towns still to hear from stands Republicans forty eight, Democrats twenty-three, with no election in fifteen districts. The Republicans need but seven more votes to enable them to elect the governor and general officers on joint la lot should there be a failure to elect the latter by the people as now seems probable.

Wholesale Sugar Devlors in Trouble. New York, April 2 .-- The new tariff law which went into effect yesterday, caused considerable agitation among wholsale grocers yesterday morning. Sugar went down two cents on account of the new law, but the great difficulty now with wholesale grocers is to obtain a supply on account of the United States custom anthorities not detailing a sufficient number of clerks to get the sugar in bond ready for delivery.
